BEYOND EXPLORING

In our small paradise of nine lodges, people like to get together. You see each other, you greet each other, you know each other. Because here at CERVO, sincere hospitality meets stylish ambience, attention to detail and unobtrusive luxury. Surrounded by 38 four-thousand-metre peaks and the rugged beauty of Zermatt, the CERVO is the gateway to the mystical mountain world of the Alps. With a deeply rooted awareness of the exceptional, of quality and of authentic cordiality, the CERVO invites its guests to discover the imposing natural surroundings and find a piece of themselves.

The Mountain Resort represents the balance between hunting lodge, Alpine Chalet Lodge and the right portion of modernity and offers different rooms in contemporary alpine style for a small or large event. Arrange an extraordinary meeting in our ritual room, have an aperitif on the Ferdinand Terrace with a unique view of the Matterhorn or say „Yes“ to festive Casual Fine Dining at Madre Nostra. We look forward to talking to you in person so that we can put together a suitable offer for you.

FERDINAND

A breath of fresh air for traditional Valais cuisine. At the Ferdinand, only Swiss products, most of them even from the Valais itself, are put into the pots. Those who like cheese will love fondue and raclette and will be surprised by the multi-faceted Valais specialities. The contemporary interior of the chalet emphasises the modern side of Zermatt's mountain aesthetics. Indulgence at its best.
